## Customers

A customer might be an entrepreneur start-up, the owner of a small taxi business looking to establish presence in urban settings, a wedding planner, an advertising business looking for a new strategy to bring ideas to life or a commercial realtor looking to run a service in a shopping mall. These are real people who chose eQ electric battery pedicabs to help them realize their full potential to meet their unique needs in business.

## Administration

Grupo Eléctrico Motorizado SA de CV staff includes some of the most experienced technology and business professionals in the industry.

## About Grupo Eléctrico Motorizado and E Cars Go

It began in 1999, when Grupo Eléctrico Motorizado SA de CV was formed. Today, the company spans North America as an industry leader in light electric transportation vehicles and develops, manufactures, sells and distributes electric pedicabs, light utility and a cargo vehicle to meet today's pressing environmental challenges. In addition, the business offers the largest manufacturer's service organization in the North America.

E-Cars-Go is the distributor for Grupo Eléctrico Motorizado SA de CV products and service.

## About eQ Battery Pedicabs and Battery Utility Carts

The company offers specialized solutions to a variety of markets including: Pedicabbing with the eQ3 Pedicab and eQ150 Retro Pedicab a two-passenger bench seater with rear retractable canopy; Utility and Cargo Carts for all around utility and light cargo; and for targeted specialized advertising, the eQ Lytebox Slideshows.
